
Sarla Technologies partners with Kepware Technologies as their Preferred Distributor to deliver proven Plant Connectivity solution in the Plant IT and Automation spectrum in India.

To provide advanced Communications and Interoperability Platform for different industry sectors.

Mumbai, India, Monday, December 13, 2011: Sarla Technologies, leading **Automation & Plant IT Solutions** provider and Kepware Technologies, leader in **Communications for Automation** signed a Preferred Regional Distributor agreement, today. Through this agreement, Sarla Technologies will offer Kepware's Suite of **Software** Products and Services for Pan India.

Sarla Technologies will distribute and support Kepware's Suite of Software Products and Services. These solutions are designed to quickly setup communications to diverse control systems for Monitoring and controlling the automation devices and applications, in varied industries. This partnership with the Kepware Technologies will help Sarla Technologies, its partners and customers to establish a proven standard for connectivity in the Automation Spectrum.

"Sarla has been a well-respected Automation & IT solutions provider for a number of years," said Tony Paine, President of Kepware Technologies. "When selecting our preferred distributor for this rapidly growing market, we found that Sarla strongly aligned with Kepware's commitment to quality products and customizable solutions."

"Our partnership with Sarla will help our clients achieve their corporate objectives. It will also help us maintain our leadership position as the industry's premier Automation Communications and Interoperability Platform solutions provider," concluded Paine.

Upon this partnership, **Mr. Anil Mehta, CEO** of Sarla Technologies says, *"By partnering with Kepware, we look to offer a robust and proven Plant Connectivity solution in the Plant IT and Automation spectrum in India. These solutions complement very well with our Plant Intelligence Solutions and are a best fit offering for our sub-channels and partners too."*
